

Increasing Demonic Influence

(May 4, 2023)

It is difficult to look at society and not see increasing demonic influence. I always find it fascinating when Christians fail to see the connection between the increase of evil in society and the increase of demonic activity. I suppose it's due to the fact that we cannot see demons or the activity within the spiritual realm. That's probably a good thing, but because we cannot, we rely too much on what we *can* physically see.

It is clear from Scripture that demons have been around since the Old Testament and were still operating during the time Jesus walked this earth. It is reasonable to assume that those demons continue their opposition against God and the Church. Moreover, what we are seeing today is, in my opinion, an *increase* in activity throughout society.

We might be tempted to blame globalists whose names are familiar (Bill Gates, Klaus Schwab, etc.), but the truth is as Paul noted we war not against flesh and blood but against powers and principalities in the spiritual realm (**Ephesians 6:12**). Though people often are the direct perpetrators of evil, we need to look beyond human beings to see that the first cause is Satan and his angels in the spiritual realm.

As a young kid, life was far different and far more innocent. Now we have people like Dylan Mulvaney portraying an extreme caricature of a woman going to bat for Bud Light beer. Mulvaney wants it to be illegal for anyone to refer to him using a pronoun that is not used to describe him/herself. Imagine that, if you do not use the correct pronoun in referring to Dylan, he'd/she'd like you to be arrested. The whole thing is absurd. But again, is this because of Dylan Mulvaney or the spiritual forces of wickedness out of sight in the spiritual realm? Clearly, it is *both*, but it is mainly, the latter. Dylan is simply the willing puppet being used to usher in a greater darkness over the face of society.

Here's a list of just some of aberrant things happening in society due specifically to the upsurge in demonic activity throughout the globe.

1. **CV Pandemic/Job:** In the last several articles ([here](#) and [here](#)), I've presented what medical experts present as facts regarding the "dirty bomb" that the CV jab is and what that means for people who took one, two, three or even four jabs or more all to allegedly fight what turns out to be a serious cold or flu. Since the virus is always mutating, it's really impossible to get ahead of it and create a vaccine that actually eliminates it. People are dying in droves. Turbo cancers are all the rage. Brain aneurysms abound. Leukemia is occurring at an astounding rate among the very young along with cardiac arrests. The purpose of the jab appears to be mass murder.
2. **Immorality:** This subject is becoming pronounced throughout the globe as well. People are far more base, immoral, corrupt and simply evil, willingly aligning themselves with demons. Just the way language has become far more base is part of the direct influence of demons operating unseen in society and emphasizing their presence. Satan has gained notoriety in society. Just look at the most recent award show from Hollywood where people dressed as Satan and essentially debased themselves (and the audience), in worship to him.

3. **Satanic Clubs:** Schools have always had after school clubs for kids at schools. Years ago, it was Boy/Girl Scouts, Chess Clubs, Bible Clubs, etc. Today, add to that the burgeoning growth of Satanic Clubs that is now catering to and inviting young children to be part of those clubs. The goal is to show Satan as a "cool" guy who cares for you. Since kids are easily manipulated and influenced, and because schools offer room for other clubs, these Satanic Clubs will continue to grow and young children will increasingly respond.
4. **Violence:** Violence (guns, knives, cars, beat downs, etc.), is becoming epidemic and normative. There is often no real rationale for these types of things but people will insist that if we simply remove or at least make it far more difficult to obtain guns, these things wouldn't happen. Truth is if someone wants to kill someone or a group of people, they'll find a way whether it's using knives, axes, bombs or cars. Take away guns (if at all possible), and mass murderers would simply resort to other means. The goal to remove guns from society is for the benefit of those who want to enslave us and don't want law-abiding armed citizens firing back at their armies.
5. **Inflation/Recession/Depression:** We've already seen several regional banks go belly up. It's happening to more banks this week. What will be the end result? It seems to me that these regional banks will be taken over by much larger banks. What some see as a "good" thing because depositors will not lose their deposits, will ultimately be a bad thing when only large corporate banks exist making it much easier for them to use CBDCs (digital money), eliminate paper money altogether and control how people spend their money. Add to this the fact that because the Fed keeps raising interest rates (most recently by .25 to 5.25%), inflation/shrinkflation will increase. Eventually, we can expect to see a redo of the 2008 housing industry crash. Purchase of new homes will slow to stop because people will not be able to afford them. Workers in the new build category will be laid off because fewer and fewer new homes will be built. This will affect other areas of the economy and most people. We've already seen huge increases in the foods we buy compared to just a year ago and we'll probably see more of an increase. Poor folks and those on fixed incomes with no other sources of income will suffer the most. The outlook is not good, so say the experts. [1] Of course, we need to note that the US debt ceiling has not been dealt with and even if it is, bad things financially could still occur. But where does the US get it's billions to keep sending to Ukraine?
6. **Insanity:** There really is no other way to put this. Insanity is on the increase. What else would explain the new "science" that "men can get pregnant," and "men can identify as women," that young children should be able to change genders if so desired and parents should not be allowed to interfere? All this and much more is becoming the norm within society; a society that is on the verge of collapse because of all the factors listed and the insanity that has become prevalent.
7. **Wars and Rumors of Wars:** We keep hearing of "WWIII" between Russia, Ukraine and anyone else who wants to join in. Is it really a war? Is it "wag the dog"? We don't know if the attempt on Putin was from Ukraine, the USA or something the Russians did to give them the chance to go nuclear. There is no way to truly know since the mainstream media is onboard with globalists. We can probably guess that this will all ramp up until actual full-scale war results.

Things are going badly awry for much of the world including the USA. There seems to be little help as we see this nation hurtling toward the financial, violent and insane abyss. Though we tend to want to blame certain human beings for the troubles that exist, we need to change our perspective. Too many continue to believe Trump is the guy who's going to save us. If those folks would only realize that Trump can't even save himself from criminal charges, how can he save this nation? It's all a big sideshow - breads and circuses - to distract and give false hope. The only real hope of course is in Jesus alone.

The Christian's faith should be directed to Jesus. The Bible explains the plan that God decreed before the foundation of this world. Christians who do not read and study His Word ignore it to their own detriment. Jesus specifically noted in His Olivet Discourse that times toward the end prior to His physical return would be horrible. All we need to do is read **Matthew 24** thoroughly and understand that Jesus is describing a time of "...*great distress, unequaled from the beginning of the world until now—and never to be equaled again.*"

That one sentence says a great deal. Jesus is saying that the difficulty of the coming days - the Tribulation/Great Tribulation; two 3 1/2 year periods or 7 years total - will be so devastating to humanity and this planet that *everything* that came before it will pale in comparison. How will that come to be?

The only logical answer to that question referring to Jesus' statement is that the demons of hell will literally be released to be used by God as He pours out His wrath onto the earth. We know this occurs as one of the Trumpet Judgments of **Revelation 9**, where hordes of demons are released from the Abyss (described as the First Woe). I tend to think of those particular demons as the ones who were so vile and violent that God imprisoned them in the Abyss long ago. During the 5th Trumpet Judgment, God allows them to be released and uses them as His arm of judgment against unrepentant people. However, demons have been in this world for ages and their power and engagement with and through people has greatly increased because more people are willingly seeking them out. God allows this for His purposes.

I believe this increase of demonic activity is why we are seeing such weird and insane behavior in people. This would also explain Deagel publishing a report predicting that by 2025, the population of the USA will have *dropped by 70%*. Yes, that's 70%. [2] [3]

Apparently, demons have been allowed to increase their influence in society to bring the final global kingdom to fruition. It is now taking shape and within a few years, it would not surprise me if the ten "kings" take their place to rule the ten sections of the world that globalists envisioned decades ago and the Bible predicts (**Revelation 12, 13 & 17**). From that point, the Antichrist will intrude on their dream and become sole ruler over the entire world. All this is spelled out in **Daniel** and **Revelation**. It shouldn't be a mystery to anyone.

Plan on seeing a continual increase in wickedness and evil permeating global society. Paul describes it in **2 Timothy 3:1-5**.

But know this, that in the last days perilous times will come: 2 For men will be lovers of themselves, lovers of money, boasters, proud, blasphemers, disobedient to parents, unthankful, unholy, 3 unloving, unforgiving, slanderers, without self-control, brutal,

despisers of good, 4 traitors, headstrong, haughty, lovers of pleasure rather than lovers of God, 5 having a form of godliness but denying its power. And from such people turn away!

The above characteristics are ultimately created by demons through willing people. Paul says these days we are living in are increasingly "perilous." Why? Because of demons and their activity. Look at that list of adjectives:

1. lovers of self
2. lovers of money
3. boasters
4. proud
5. blasphemers
6. disobedient
7. unthankful
8. unholy
9. unloving
10. unforgiving
11. slanderers
12. no self-control
13. brutal
14. despisers of good
15. traitors
16. headstrong
17. haughty/arrogant
18. lovers of pleasure
19. haters of God

Isn't this what too many people in the world are becoming and it all has to do with a greater invasion and influence of demons in and through people, as they permeate society. I've met a few people over the years whom I believe were demonically possessed. I think of them and still pray for them. Through people, demons have actually gained greater access to *society* and the changes that need to occur in order for the final global kingdom to be put in place. The person becomes the door through which demons can access more of society. I believe it will exponentially and continually increase throughout the globe until the physical return of Jesus.

But we also need to remember as that demonic activity increases, we Christians may likely become targets. We may have to *respond* to that threat they pose if directed at us but we must never believe that the person is the source of that malevolence (even though they would be culpable). If we can walk away from a threat, we must do so. If we cannot do that, then we must do what we can and what the law allows to protect our families. We also need to draw close to our Lord and remain close to Him, counting on His protection, wisdom and discernment in these growing difficult days. It's not going to be a cakewalk.

Knowing why society is undergoing massive change is good because it helps us stay focused and reliant on the Lord. We don't waste time wondering what's going on. We are alert to the possibility of demonic activity and we are also always ready to share the Gospel with people who do not know Him even if that means they may act in ways that are contrary to how human beings should act because of the potential demonic activity in their lives.

We can be certain that demonic activity and influence in society will increase. It does not need to scare us because He has overcome the world and He will never leave or forsake us. The question then becomes, will we break fellowship with Him and start going off on our own, in our own strength? May it never be.
