

Preaching Elder R. Rubino
Sermon Outline for Sunday, July 4, 2021
Sermon: "Prep For The Last Fourth of July!"

I Text:

Old Covenant: *Genesis 1:24-31*

New Covenant: *Revelation 13*

II Doctrine:

The United States of America has been an anomaly since it first appeared on the world stage. Our nation although imperfect was founded upon unique principles. The Declaration of Independence describes a government founded on the principles of God's natural law. It uniquely espouses Man's rights come from God and not the government. It explicitly recites John Locke's view of the pursuit of life, liberty, and property being present in Genesis.

Every other political system relies on the government deciding on what is lawful for it's citizens. These political systems rely solely on man as the arbiter of truth. These governments always evolve into totalitarian systems like we see described in the book of Revelation. These neo-Babel empires are all the same.

During World War Two we defeated the National Socialists, but allowed the Communists to take over the world. We are living with the consequences of that decision today. Removing God from our society, removed the foundation for our governmental system. We are in the middle of a Communist revolution in America. The divide and conquer tactics are still the same. America is being strategically broken up and we need to prepare accordingly.

III Comparing Scripture With Scripture:

1) The United States of America has been an anomaly since it first appeared on the world stage. Our nation although imperfect was founded upon unique principles. The Declaration of Independence describes a government founded on the principles of God's natural law. It uniquely espouses Man's rights come from God and not the government. It explicitly recites John Locke's view of the pursuit of life, liberty, and property being present in Genesis. (*Genesis 1:24-31*; https://en.wikipedia.org/wiki/John_Locke)

2) Every other political system relies on the government deciding on what is lawful for it's citizens. These political systems rely solely on man as the arbiter of truth. These governments always evolve into totalitarian systems like we see described in the book of Revelation. These neo-Babel empires are all the same. (*Revelation 13*; https://en.wikipedia.org/wiki/Friedrich_Engels)

3) During World War Two we defeated the National Socialists, but allowed the Communists to take over the world. We are living with the consequences of that decision today. Removing God from our society, removed the foundation for our governmental system. We are in the middle of a Communist revolution in America. The divide and conquer tactics are still the same. America is being strategically broken up and we need to prepare accordingly. (*Matthew 28*)
